

The Master Hand Knitting Program

2024

The Master Hand Knitting Program is in its 36th year! Since its inception in 1987, knitters have been challenging themselves to become elite knitters. The program was designed as an educational process, not a competition or contest.

Upon completion, you will have a mastery of basic and advanced knitting techniques. You will have knowledge of knitting-related topics such as the care of knitwear, history of knitting, and knitting traditions. You will have experience in design and writing your own patterns and instructions. But more importantly you will have confidence in your own abilities. Where this confidence takes you is up to you.

How the Master Hand Knitting Program Works

Knitters work independently through three levels of the program, each building on techniques demonstrated in the previous level. Each level is completed and evaluated by the Master Hand Knitting Committee before the knitter is able to move forward to the next level. Are you ready to take your knitting to the next level?
