

SIDEWAYS GARTER STITCH SKIRT

by Arenda Holladay

BEYOND THE PATTERN

This skirt, knit from side-to-side with short row shaping, was inspired by the yarn Kauni Effektgarn. The long color repeats work well with the short rows. To reduce bulk at the join, a Provisional Cast On and Kitchener stitch are used instead of a seam. The waistband is Garter stitch on the front and Stockinette stitch on the inside. Since this skirt is knit from side to side, it is easy to alter for different sizes. Simply knit fewer or more rows.
